Aquasurf Ultra™

Waterborne Universal White Primer

AU1 AQUASURF ULTRA™ Waterborne Universal White Primer is a self-cross-linking acrylic based surfacer/primer designed specifically for MDF and hardwoods. It is low VOC, HAPs-free and does not contain any formaldehyde or isocyanates. It is fast drying, easy to sand and high filling.

Aquasurf Ultra™ provides an excellent base coat for a variety of KCI top coat systems including waterborne, pre-catalyzed lacquer, post-catalyzed coatings, conversion varnishes and urethanes. It is especially well suited for use with KCI's Aquavar™ Waterborne White Topcoats as part of a high-quality interior wood finishing system.

Features

- 60% weight solids; 44% volume solids
- Reduce (if necessary) and clean up with water
- Low VOC, HAPs Free, low odour, ultra-low formaldehyde
- High hiding, great filling properties on MDF
- Fast dry and easy to sand
- Primer/basecoat for KCI waterborne, pre- and post-catalyzed lacquers, conversion varnishes, urethanes as well as latex paint.

KCI Greenstar™ Products

KCI'S GREENSTAR™ is a unique line of Canadian engineered and manufactured waterborne products that meet or exceed all current North American environmental standards including:

- Greenseal GS-11 Standards
- Green Guard Standards
- LEEDS 4.2 Low Emitting Materials – Paint & Coatings
- South Coast Air Quality Management District (SCAQMD) Rule 113-R-VOC

In addition, GREENSTAR™ products do not contain any of the following prohibited or suspect chemicals:

- Formaldehyde or formaldehyde donors
- Isocyanides
- Heavy metals especially lead
- Phthalates
- HAPs solvents or volatiles
- Alkyl phenol ethoxylates (APE's)
- Triphenyltins (TPT) or Tributyltins (TBT)
