# Katilac Sealers

HIGH QUALITY INTERIOR WOOD SEALERS

## PRE-CATALYZED READY TO SPRAY

### EK6 KATILAC PRE-CAT SEALER

---

25% solids

### EK8 KATILAC VINYL SEALER

---

25% solids

Exhibits excellent holdout and adhesion properties.

EK6 and EK8 are fast-drying, water-white yellowing resistant and easy to sand. They have been specifically designed to be used in combination with any of Katilac Coatings' pre-catalyzed or post-catalyzed conversion coatings as part of a high quality interior wood finishing system.

Both EK6 and EK8 can be used in a post-cat system by adding 3-5% catalyst. (Halton 1Cat.)

## POST-CATALYZED CS-10 CLEAR SEAL

---

35% solids

Extended pot-life sealer of up to 5 days

CS-10 is a solvent borne, two component, post-catalyzed, alkyd/amino resin based clear sanding sealer. It is water-white, yellowing resistant, fast drying, easy to sand and exhibits

excellent hold-out, clarity and adhesion properties. CS-10 has been specifically designed to be used in combination with Katilac's KD Diamond and DHS Summit Clear series of post-catalyzed coatings as part of a high quality interior wood finishing system.
