The pre-cat lacquer that has the performance of a post-cat!

KATILAC COATINGS INC.

Katilac Ultra

PRE-CATALYZED CLEAR COATINGS

HAPS-FREE, ULTRA PERFORMANCE INTERIOR WOOD FINISHES

The Katilac Ultra KU Series is a line of solvent borne, one component, pre-catalyzed, alkyd/amino resin based conversion coatings.

They are water-white, yellowing resistant, HAPS-Free coatings specifically designed for high quality interior wood finishing. They can be used in a self-sealing system or in conjunction with Katilac's EK6 Pre-Catalyzed Sealer or EK8 Pre-Catalyzed Vinyl Sealer.

KU SERIES

30% solids

HAPS-Free Conversion Coating

Conforms to KCMA / AWMAC

Katilac Ultra scored 126 out of 135 in our AWMAC testing. (Standard 99 out of 135.)

Available in 90/40/25/15 degree sheens.

Ask about the "Bolt" Test. You have to see it to believe it!
