

Pre-Catalyzed White System

High quality interior wood finishing system

KATILAC COATINGS INC.

Pre-Catalyzed White System

HIGH QUALITY INTERIOR WOOD FINISHING SYSTEM

E14 OMNIPRIME WHITE PRE-CATALYZED PRIMER

52% solids

Pigmented Primer

E14 Omniprime White Pre-Catalyzed Primer is a solvent borne, one component, pre-catalyzed, alkyd/amino resin based white primer. It is fast dry, yellowing resistant and easy to sand. E14 Omniprime has been specifically designed to be used in combination with Katilac's Prizm E7 Series Pre-Catalyzed White Pigmented Conversion Coatings as part of a high quality interior wood finishing system.

E7 SERIES

PRIZM WHITE PRE-CATALYZED TOPCOAT

42% solids

Pigmented Conversion Coating

The E7 Series Prizm White Pre-Catalyzed Topcoat is a line of white pigmented, solvent borne, one component, pre-catalyzed, alkyd/amino resin based conversion coatings. They are yellowing resistant, high hiding topcoats that feature fast dry and high build. They are specifically designed to be used in combination with Katilac's E14 Omniprime Pre-Catalyzed Pigmented White Primer in a high quality interior wood finishing system.

These products are available in 90/35/25/10 degree sheens.
