**Katilac Coatings**

MASTERING THE EXACT ART OF CUSTOM COLOUR MATCHING

# Heritage Wiping Stains

Colours displayed represent samples of the Katilac Heritage Wiping Stain Collection applied to oak and maple. Oak grain is shown on the left and maple to the right.

Samples were sanded with 150 grit, dust was removed and stain applied. Stain was allowed to penetrate for up to three minutes, then wood was wiped clean with a lint-free cloth. Samples were allowed to dry for a minimum of 30 minutes, then sealed and top coated.

Due to natural variations in wood, actual results may vary.

**WS-26 CINNAMON**

**WS-S27 HONEYCOMB**

**WS-28 LIGHT CHERRY**

**WS-29 YELLOW OAK**

**WS-56 NEW ROSEWOOD**

**WS-57 HALTON CHERRY**

Printing inks will show differently than actual stains. Colour is representative of the wood, but may not be exactly as shown.

Since 1962, Katilac products have provided professional wood finishers with premium-quality Canadian products engineered to beautify, restore and protect wood.

## **Katilac Coatings** **WHERE QUALITY IS INGRAINED**

**MASTERING THE EXACT ART OF CUSTOM COLOUR MATCHING**

Katilac offers a full range of stains, conversion varnishes, pre and post-catalyzed lacquers and water-based finishes. Each is available in clear or pigmented systems.

We've mastered the exact art of custom colour matching. Katilac is your natural partner when duplicating complete ranges of stains, glazes, shading lacquers and solid colour finishes.
