WATERBORNE WOOD COATINGS

Aquasurf Ultra™

Waterborne Universal Primers

AU1 & AU2 AQUASURF ULTRA™ Waterborne Universal Primers are self-cross-linking acrylic based surfacer/primers designed specifically for MDF and hardwoods. They are low VOC, HAPs-free and do not contain any formaldehyde or isocyanates. AQUASURF ULTRA™ are fast drying, easy to sand and high filling. AQUASURF ULTRA™ is available in AU1 White and AU2 Neutral for darker colours.

AQUASURF ULTRA™ provides an excellent base coat for a variety of KCI topcoat systems including waterborne, pre-catalyzed lacquers, post-catalyzed coatings, conversion varnishes and urethanes. AQUASURF ULTRA™ is especially well suited for use with KCI's AQUA-ELITE™ Waterborne Topcoats as part of a high-quality interior wood finishing system.

Features

- 60% weight solids; 42% volume solids AU1 White
- 52% weight solids; 38% volume solids AU2 Neutral
- Reduce (if necessary) and clean up with water
- Low VOC, HAPs Free, low odour, does not contain formaldehyde
- High hiding, great filling properties on MDF
- Fast dry and easy to sand
- Primer/basecoat for KCI waterborne, pre- and post-catalyzed lacquers, conversion varnishes, urethanes as well as latex paint
- AU1 White & AU2 Neutral can be tinted with Chromaflo 896 WB colourants to achieve any colour

KCI GREENSTAR™ Products

KCI'S GREENSTAR™ is a unique line of Canadian engineered and manufactured waterborne products that meet or exceed all current North American environmental standards including:

- Greenseal GS-11 Standards
- Green Guard Standards
- LEEDS 4.2 Low Emitting Materials – Paint & Coatings
- South Coast Air Quality Management District (SCAQMD) Rule 113-R-VOC

In addition, GREENSTAR™ products do not contain any of the following prohibited or suspect chemicals:

- Formaldehyde or formaldehyde donors
- Isocyanides
- Heavy metals especially lead
- Phthalates
- HAPs solvents or volatiles
- Alkyl phenol ethoxylates (APE's)
- Triphenyltins (TPT) or Tributyltins (TBT)
