

KATILAC COATINGS INC.

Omniprime™

Pre-catalyzed Pigmented Primers

The foundation of a great pigmented pre-catalyzed system

Omniprime™

Pre-catalyzed White Primer

E14 OMNIPRIME™ is a solvent-borne, single component, pre-catalyzed, alkyd/amino resing based white primer. It is fast drying and easy to sand, has excellent filling properties and provides great adhesion to MDF. E14 OMNIPRIME™ has been specifically engineered to be used in conjunction with E7 Series PRIZM™ White Pre-catalyzed Lacquers.

E14 OMNIPRIME™ when used beneath E7 Series PRIZM™ Pre-catalyzed White Lacquers, passes both the CKCA and NAAWS performance standards for pre-catalyzed lacquers. As such, this system is suitable for cabinetry and also furniture, mouldings & trim and general interior millwork. Limitless colour options are possible through custom tinting at your local KCI distributor, especially those utilizing the KCI/X-rite Colour Designer program.

Features

- 52% weight solids; 29% volume solids
- Can be tinted to off-white & pastel colours
- Fast drying, easy to sand, powders easily
- Low odour, ultra-low formaldehyde
- Very good fill properties on MDF
- Excellent flow & leveling
- Sands & powders easily

Omniprime™

Pre-catalyzed Neutral Primer

E15 OMNIPRIME™ is a neutral tint base counterpart to E14 OMNIPRIME™ White Pre-catalyzed Primer. It is designed to be tinted with Chromaflo 844 Series industrial colorants to achieve mid-tone to dark colours.

Features

- 52% weight solids; 34% volume solids
- can be tinted to achieve very dark colours including jet black
- Fast drying, easy to sand, powders easily
- Low odour, ultra-low formaldehyde
- Very good fill properties on MDF
- Excellent flow & leveling
- Sands & powders easily
