

KATILAC COATINGS INC.

Quickseal™

Post-catalyzed Vinyl Modified Sealer

A high build sealer that exhibits very fast dry and is as smooth as a topcoat

Quickseal™

Post-catalyzed Vinyl Modified Sealer

VS4 QUICKSEAL™ Post-cat Vinyl Modified Sealer is a two-component, solvent-borne, alkyd/amino/vinyl resin based clear sanding sealer. It is a high build, water-white, yellowing resistant vinyl sealer that dries very quickly, sands & powders easily and exhibits excellent hold-out and adhesion properties. QUICKSEAL™ has high solids which gives it excellent filling properties making it ideal for rustic applications and open pore woods. Additionally, the vinyl resins in VS4 QUICKSEAL™ give the product better moisture resistance which is desirable for kitchen cabinet applications.

VS4 QUICKSEAL™ is engineered to compliment KCI's clear post-catalyzed lacquers such as FUSION™ and conversion varnishes such as DIAMOND™ and PINNACLE™.

Features

- 34% weight solids; 25% volume solids
- 10% catalyzation by volume;
- Gun ready viscosity after catalyzation
- 8-10 hrs pot-life
- Fast drying, dry to sand in ~30 minutes
- Ultra low formaldehyde
- Compatible with KCI stains, glazes and dyes
- Formulated with the same quality resins used in KCI post-cat topcoats

Also available:

Katilac™

Vinyl Sanding Sealer

EK8 is dual cure vinyl sealer for use under all KCI clear solvent-based topcoats. It has excellent clarity, is very fast to dry and easy to sand.

Features

- 25% weight solids; 16% volume solids
- Can be used as a pre-cat sealer or catalyzed 5% for use under KCI post-cat lacquers and conversion varnishes
- Ultra-low formaldehyde
- Excellent chemical and moisture resistance
- Water-white, yellowing resistant

Katilac™

Pre-cat Sanding Sealer

EK6 is a versatile, water-white sanding sealer designed for use under KCI's pre-catalyzed lacquers. It has excellent sanding properties.

Features

- 25% weight solids; 19% volume solids
- Ultra-low formaldehyde
- Excellent clarity
- Yellowing resistant
