

## **Batch Maker/Colour matching Technician**

Katilac Coatings Inc. provides wood finishing systems along with our colour matching services through two distribution sites in Ontario. We service the manufacturers of Kitchens, Furniture, Shutters, Store Fixtures and Mill Work.

Katilac Coatings' (KCI) Southern Ontario manufacturing facility has been producing quality wood products under stringent test specifications since 1962. Katilac Coatings has been named twice in PROFIT Magazine rankings of Canada's Fastest-Growing Companies.

We are currently seeking to fulfill the position of Batch maker/Colour matching technician. Previous experience in a paint manufacturing environment would be an asset. An eye for colour is a must.

Must be dependable, detail oriented and self-motivated. Must have basic computer knowledge and speak fluent English. Some moderately heavy (50+ lbs) lifting.

### **Essential Duties and Responsibilities:**

- Produce small batches based on pre-existing formulations.
- Match paints and stains to customer specifications
- Record and communicate formulations in a clear and unambiguous manner, noting any special features or requirements.
- Perform Quality Control checks on all color matches/batches prior to the shipment of samples.
- Maintain a tidy and safe work environment.
- Perform other duties as assigned.

### **Job Skills:**

- An eye for color.
- Knowledge of wood stains, lacquers, finishes and solvents an asset.
- Prior experience color matching an asset.

### **Requirements:**

- Must have full perception of the color spectrum, and the ability to create formulas in a timely manner using available materials.
- Previous experience in paint/coatings tinting an asset.
- Requires basic computer proficiency.
- Must have basic math knowledge.
- Must maintain strong attention to detail and be able to multi-task.
